London, 25 August

Dear Jaanika,

Thank you for your letter. It was very interesting. Your English is great, there is nothing to worry about. Now I'm trying to answer your questions and tell about myself.

I liked my summer holidays too, but now I'm waiting for my classes again. I am always excited before the new school year. It's nice to say hello to my friends and teachers. I am interested in my results and I try to do my best. School is very important. My deskmate Paul is my best friend and we do a lot of things together. We are both 13 years old. Paul's father is a composer. He travels a lot and tells us stories about his trips. I don't go to music school, but I collect CDs of guitar music. At least once a month I go to a concert.

We always have a family party on the first day of school. My granny and grandad tell funny stories from their schooldays. I can never make out what is true and what is a joke. We usually have a lot of fun on that day.

My parents are different. They worry too much. When I get home later than usual, they start asking too many questions. They want me to do all kinds of things and it's no use arguing with them.

I am very proud of my brother David. He is twenty-five years old. He knows a lot about computers and writes business programs for big companies. David gives me exciting presents. He seems to know my secret wishes. I even got my favourite book from him. It always cheers me up when I am sad.

Have you got any hobbies? Who is your best friend? Write to me about it.

Best wishes,  
Jack
